Password Protection and Security

Presented by Howard Cornett

Passwords are a part of our everyday lives and yet most of us don't protect our information as well as we should. Join Howard Cornett as he addresses the need we all have to manage multiple passwords in a secure way. He will present a relatively easy way to create a set of passwords that will be both easy for users to implement and remember while also being much harder to hack. Howard will briefly explain what password managers are, how they work, and give references to a few.

ABOUT HOWARD CORNETT:

Howard Cornett is the owner of Howard Cornett Digital Consulting in Framingham. The goal of his company is to empower individuals and small businesses by teaching them how to be more comfortable and proficient at using their technology. Howard is a graduate of Georgetown University.
